

Express Plus *For the Long Haul* Power Driven Cart System

TECNI-QUIP

Seen above on aluminum **Model L-77** 24" x 60" x 70"

The Express Plus System can be easily installed on any model or size of TECNI-QUIP cart.

Express Plus system enables the cart to be completely Guided by the motorized system, "not your employee".

Improves work efficiency and safety
Reduces injuries

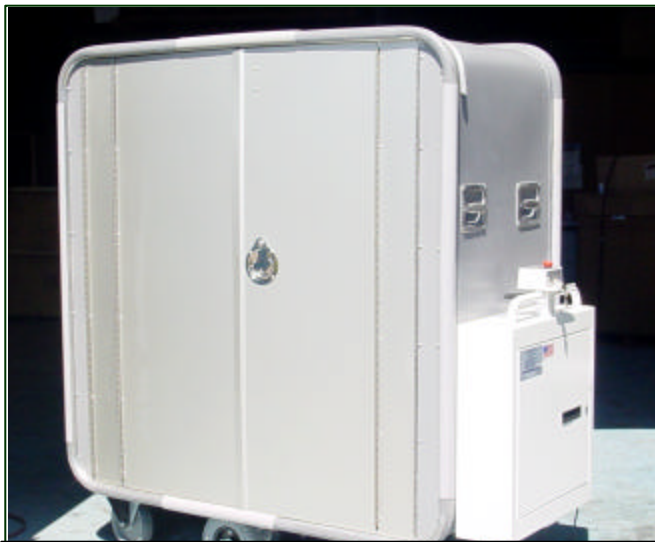

Express Plus is unique:

- Speed of cart can be reduced or accelerated with Touch of a lever.
- Cart is completely maneuverable can swivel into tight spaces or alcoves.
Other systems only allow 2 rigid & 2 swivel
- Computer can be individualized to many different applications and employee requirements.

Suggested use:

The solution for individual carts that have specific requirements: i.e. Transport range in uniquely far or continuous, carts carrying heavy loads, for specific employees or assigned tasks.
